

# History

## History

The history of Krynicki Recykling on Polish market of glass recycling dates back to 1998. After few years of existing as one-man business, in April 2003 the Company was transformed into limited liability company. Furthermore, on October 31, 2007, preparing for its debut on the capital market, Krynicki Recykling changed its legal form into joint-stock company.

Since the very beginning Krynicki Recykling S.A. has been concentrating on recycling recyclable wastes from selective waste collection.
